TROPICO INTER-URBAN SENTINEL

(Established 1910)

Published every Thursday at Tropico, California, and devoted to the best interests and future welfare of the most healthful city in the San Fernando Valley. Come and see for yourself.

Gertrude Gibbs .. Editor and Owner
Edith A. Cross .... Associate Editor
Telephone: Glendale 1500.

"Entered as second-class matter May 23, 1916, at the postoffice at Los Angeles, Cal., under the Act of March 3, 1879."

OFFICIAL PAPER OF THE CITY

Subscription, $1.00 per year.

Advertising rates furnished on application. The Value of the Tropico Interurban Sentinel as an advertising medium is obvious when its field at the head of the San Fernando Valley is considered. The nature of the paper, the character of its subscribers and the class of advertising it carries tell the whole story.

The gloom of some of the Republicans whose hopes of a change of administration and of policies have been dashed, would be amusing if it were not alarming from a business point of view; because business prosperity is more dependent upon popular hope and confidence than it is upon legislation. Ours is a big county and it is the people not the president which make it great and prosperous. The majority of the people have elected Mr. Wilson president and are prepared to stand back of him and try to promote the prosperity of the United States under his policies. It is up to the rest of us as loyal republicans (in the National not party sense of the word) to yield to the popular will, swallow our disappointment and make the best of conditions for ourselves and others. But still more is it up to those who voted the Democratic ticket to 'demonstrate" as our Christian Science friends say, by bestirring themselves to develop business activity for the other fellow as well as themselves and thus prove that wisdom is justified of her children.

If the Democrats will unite in an effort to establish manufactories, to develop the agricultural resources of the country, to make loans to the land poor which will enable them to get onto their feet financially, avoid bankruptcy and sustain land values, they will be freely forgiven and all Californians will take fresh heart. As before remarked, hope and confidence are the keynote of prosperity. It is up to the Democrats now to show us the bright path and lead the way and it is up to the Republicans to respond and reciprocate.

However the citizens of Tropico may differ in their political views or their religious faith, they have one common ground of interest and equality. The weather may become stale and unprofitable as a theme of conversation or the Ivanhoe Bridge, but when you ask your neighbor how his hens are doing, you strike a responsive chord. Everybody who lives up to the privileges of Tropico citizenship and a country life keeps hens, and their good records or deficiencies are a never failing theme of interest. For that reason the show to be held by the Glendale-Tropico Poultry and Pet Stock Association the first week in December, is an event of importance. Time was when a hen was just a hen, living a care free life unfretted by the searchlight cast upon an egg record weighed in the balance with the cost of her rations. Then we advanced to an intimate acquaintance with breeds and built up an elaborate table of points with expert judges to figure on them. From breeds to strains was another logical advance and the pride of the barnyard is now as blue-blooded as the fancy Shorthorns of England with their Bates and other strains. It has been found that blood tells in poultry as emphatically as in other examples of heredity and that size or egg production can be increased by intelligent breeding with as much certainty as the output of a factory. This is an age of efficiency and the hen who does not demonstrate is no longer permitted to enjoy an unprofitable career but is sent to the block when she fails to make good. Of course there are bright being in feathers which exist and are fostered by fanciers merely to gladden the eye or enslave the affections of the young, but for the practical, sober hen of domesticity, life is more complicated.

CLASSIFIED COLUMN

A PROTEST

The writer wishes to call the attention of the taxpayers of Tropico as well as of the entire County to the matter of the expenditure of our tax money by the County Flood Control Department. People who are familiar with the situation know the conditions regarding the Sycamore Canyon "Wash." To those who do not know, would state that the "Wash" is a ravine running in a westerly and southwesterly direction through the southeastern portion of Tropico. That it is from 20 to 30 feet wide with comporatively straight banks from 10 to 15 feet high, along a considerable portion of the distance through Tropico. It is bordered on the southerly and easterly sides by a range of hills about 300 feet high at the highest point. On the northerly side the ground rises continuously to the mountains north of Glendale.

This ravine turns from a westerly to a southerly direction near the point where it is crossed by Cypress street. In the vicinity of this turn it widens out considerably and loses its abrupt banks. but the general conditions as to the elevation of the surrounding lands are the same.

The largest amount of water flowing down this ravine during the heavy rains of last winter formed a stream probably 8 feet wide and 4 feet deep. In the wider portions where the water spread and there was no defined channel some of the property owners at considerable expense graded a channel for the water where it suited their convenience and planted trees and vines.

Now comes the County Flood Control Department and says that this channel must be straightened and cleaned out; the trees cut out; the fences taken down, and a general overhauling to be made of the bottom of this ravine. Engineers were sent out and surveyed for the new channel indicating where they would destroy the labors of the property owners. The writer is informed that the estimate for this improvement is about $25,000. The writer has lived by this ravine for a half dozen years and knows of no case where damage was done on account of trees growing in the ravine or the accumulation of trash about the trees, and the particular location of the center of the channel that carries this water concerns no one but the owners of the property over which it runs.

There is no possible chance for the water to get out of this ravine after it once gets into it, and so far as the tax payers of the county are concerned, there is no more need of this work being done than there would be to go up the San Gabriel river above the Azusa power house and straighten and improve the channel.

Do the people of Pomona and Long Beach and San Fernando, or even Glendale and Tropico want to be taxed for a proposition of this kind?

The people of Los Angeles County will soon be called on to vote some millions of dollars in bonds to be spent by the County Flood Control Department for improvements to water courses within this county. Would it not be wise to know the special purpose for which this money is voted before voting same? Would it not be wise to have some one handle the money who would discreetly turn down such useless propositions as this and use the money where it would be of some real benefit?

Do you want to increase your taxes just for the pleasure of paying them? Are your taxes not high enough now? With the rapidly increasing cost of living do you want to increase your expenditures by further taxing yourselves for storm water protection at places where you would have to use an elevator to get the water out of its channel? Remember, this is supposed to be a storm water protection scheme, not an irrigation project.

The writer has nothing against the Flood Control Department, does not know anyone personally that is connected with the office but is decidedly opposed to paying taxes for schemes of this kind whether located in Tropico or any other part of the county. Let us vote less bonds and have the money spent more wisely.

D. F. NOFZIGER.

Mrs. Rich has moved a building owned by her from Cypress to Tropico avenue between Central and San Fernando Road. She is preparing it for a residence and has also begun the improvement of the grounds. From the City Council she obtained permission to remove the pepper trees from the street and replace them with palms to match Mr. Bullis' frontage.

POULTRY SHOW

The Glendale-Tropico Poultry and Pet Stock Association will hold its annual shown December 5, 6 and 7, in a large tent, 60x100 feet which is to be erected at Broadway and Maryland avenue, Glendale. It will be large enough to accommodate the 400 entries which are expected besides the concessions. Eight judges have been secured who will begin their work promptly at 10 o'clock December 5th and all ribbons will be up by one o'clock when the show will open and the public be admitted. A banquet to the judges will follow the placing of awards. New coops just received from the East have been secured from the Pasadena Association and everything in connection with the show will be up to date and ideal, according to the officers. Shavings and sawdust will be abolished and clean new straw will be used in the coops. The premium list will be issued on the 15th and mailed to members. It will also be mailed to any applicant who desires it. The premium list includes cups offered by the trustees of the four cities covered by the association, Glendale, Tropico, Burbank and Eagle Rock; they will be given to the best bird shown by the respective cities.

DEATH OF ELI CALAMANTE

Last Saturday morning sorrow came suddenly to the Calmante and Hunter families. Eli H. Calamante, nephew of Charles Hunter, the plumber, was found unconscious in his bed and in a short time expired. He was a vigorous young fellow of nineteen years, and was living with his uncle, Charles Hunter. About two weeks previous he fell from a hay baler and received injuries considered slight at the time, but for several days previous to his death he complained of not feeling well. An autopsy was performed by physicians who pronounced the cause of death cerebral tumor caused by the fall. Funeral services were held at the Church of the Divine Savior on Isabel street, Monday morning. The young man was much beloved by a large circle of friends who with his parents and brothers and sisters mourn his untimely death.

Misses Hazel Millard and Margery Wallace have been quite ill of grippe.

UNION HIGH NOTES

The try-out in the inter-class debates was set for Wednesday of this week. The question on which all were to exhaust their logic was: "Resolved, that the United States should materially restrict immigration." The Seniors and Juniors were to debate it in one room, the Sophmores and Freshmen in another, then on Friday evening the winning teams were to contest for the championship. But the Seniors are too much occupied with the development of the Stylus and but three of their number out of a class membership of sixty, could be found willing to enter the forum. They therefore defaulted to the Juniors who will compete on Friday for the championship. The winners will secure quite a credit on the silver cup offered by Mr. H. H. Faries which will be awarded at the close of the year.

* * *

At their class meeting last Friday, the Juniors decided to have a big New Year dance in Masonic Temple. It will come off Friday evening before the New Year, however. The committee of arrangements is planning quite an elaborate affair.

* * *

The military cadets, about forty in number, which meet in two squads for drill on the campus twice a week, are planning to go into camp up in the mountains somewhere, during the spring vacation. The government has furnished their rifles and ammunition but they have to purchase their own uniforms.

* * *

Each one of the English teachers has received from the staff of the Stylus a blank book in which to record class jokes which will be assembled in the Annual, which is expected this year to be rather more light, frivolous and original than in the past. A joke box has also been placed at the end of the hall.

* * *

Mrs. Ella Richardson and Mr. Howdyshel, (who reinforced her plea for volunteers to help in the planting of trees in the Glendale parkways) were much gratified at the prompt response of students, when the matter was presented at Assembly last week. The tree planting bee occurred last Saturday and the trees were provided by the City Forester from the city nurseries.

The third of a series of scientific lectures by Dr. Harrower was given before the students Monday morning, his theme being, "Emotions and Their Relation to the Human Body." They have been presented in popular form and he has succeeded in greatly interesting students outside the science classes as well as those pupils for whose special benefit they were given. The two previous lectures were entitled "Physiological Chemestry" and "Internal Secretions."

* * *

The assembly has been reorganized and hereafter music furnished by the glee clubs and orchestra will feature its programs which will also include lectures. Political debates followed by rallies and parades were conspicuous on the programs previous to the national election, over which students were much excited, watching the hourly bulletins with as much interest as their parents.

* * *

In order that students in the three chemestry sections may be stimulated to keep posted on the latest discoveries of science, a clipping bureau contest has been arranged under which those who take advantage of it will receive credits for the clippings they turn in.

HUNTER AUTO FOUND

Not long ago Mrs. Charles Hunter became the happy possessor of a handsome new Chevrolet automobile, the gift of her husband. He urged its immediate insurance against theft and fire. She hesitated because it seemed to her unnecessary, but finally yielded to her husband's advice. Less than a week had passed when she had occasion to rejoice over her wise action. The machine was stolen. The insurance company was notified and the automobile was soon located in Boquet Canyon, about twenty miles above Saugus. At this writing the affair is still in the hands of the insurance company, but she will doubtless be in possession of her machine by the time this paper reaches its readers.

Mr. Harry Wilson, Sr., of First and Verdugo Road, Glendale, passed away Friday morning. Though he had been in ill health for some time, his death was not expected.

GLENDALE'S POST OFFICE

Frank Chase, the genial publisher of the "Press" and popular citizen of Glendale is a candidate for the postmastership of that city and one whom it will be hard to beat. He is capable, energetic, has a host of friends and many other qualifications which fit him admirably for the position. Glendale will find it hard to discover a better candidate or one more loyal to the interests of that city.

HIGH SCHOOL NOTES

Mr. Poore was badly burned in the chemistry laboratory last Friday morning while endeavoring to get a metalic bead from ore. In setting off the kindler it exploded, injuring his hands. He was taken to the Sanitarium where his wounds were dressed, and was able to return to school Monday.

* * *

Misses Emiline Burton, Ernestine Lyon and Margaret Lusby have been appointed to represent Union High at the meeting of the Girls' Federation of Southern California to be held in Pasadena Friday and Saturday.

* * *

Dr. Harrower's lecture on Emotions and their Relation to the Health of the Body, given last Monday morning, proved most interesting. He declared that fear or any strong emotion produces the secretion of adrinum, a powerful stimulant to the heart and all vital organs, and said that by the aid of this stimulant, produced under excitement, very astonishing physical feats have been performed. For this reason great emotion is exhausting and detrimental to health. Ignorance he stated is to blame for most of the mortality from which the race suffers.

ATTEMPTED ROBBERY AT MERCANTILE

Friday evening a short time before the closing of the Tropico Merantile Store, Mr. J. Herbert Smith discovered a man ransacking the back room of his place of business. At the interruption the man fled pursued of course by those to whom the alarm was given. He succeeded in getting away but an unknown automobile was found loaded with loot which it was later discovered had been taken from stores in Whittier and Wilmington. The machine was taken to a Tropico garage by Marshal Gould who in conjunction with police officers of Los Angeles is endeavoring to find the owner. Two stolen numbers were found on the machine, one from Los Angeles and one from Nevada. The auto was an Overland 1916, and at this writing no clue to its owner or to the thief has been obtained. Mr. Smith evidently disturbed the man before he had secured any of his stock.

NEW COMER

Mrs. Jennie Cooksey has joined the ranks of the business and professional women who after achieving distinction in the east have come to California to make a new home in a beautiful environment. Mrs. Cooksey is a photographer of rare ability and fine portraiture is her specialty. Her bungalow studio at Lomita and Brand, Glendale, has been equipped with the most up to date appliances including a nitrogen lamp system which enable her to produce any light effect desired. She will be a great addition to the artist colony.

LOCAL HAPPENINGS

Mesdames Charles Wallace Kimberly, J. Herbert Smith and Edwin Virden attended the meeting of the Tuesday Afternoon Club of Glendale this week. Lillian Burkhart Goldsmith was the speaker of the afternoon, her theme being "The Silent and Spoken Drama." Vocal numbers were contributed by Miss Louise Spaulding, for which Mrs. Mattison B. Jones furnished the piano accompaniment.

The meeting of the Art and Travel section of the Thursday Afternoon club will be held November 22nd instead of the 23rd, as heretofore announced. It will be held at the house of the president, Mrs. Charles Wallace Kimberly, and the subject will be "A Trip to Hanolulu."

Mr. and Mrs. C. M. Turck of North Glendale avnue had as guests last Sunday, Mr. and Mrs. Louis Napoleon le Gendre of New York City who will probably spend the winter in Southern California. Mr. le Gendre, who is an artist of note, is sketching in the hills of Sierra Madre.

Mrs. William Cross and Miss Hickman spent Monday at Redondo Beach as guests of Mr. D. H. Arnet, cousin of Mrs. Cross.

Mrs. Myra C. K. Shuey of Los Angeles, Mrs. Hattie Williams and Mrs. Kauffman of Santa Monica, returned to Tropico Friday to attend the W. R. C. inspection.

Mrs. Richard Todd reports that paper has been delivered to her to be sold for charity which will aggregate nearly two tons.

Mr. and Mrs. Harry Schaeffer of Tenth street, entertained fifteen relatives and friends Saturday night. Progressive Whist was the diversion of the evening and the ladies' prize was carried off by Mrs. Charles Bruck, Mr. Howard Crane winning the gentleman's reward, the booby prize being captured by J. Crane. At the conclusion of play dainty refreshments were served.

Mr. and Mrs. G. L. Thompson of Los Angeles, were Sunday guests of Mrs. Gaarder of Glendale avnue.

As usual, the Art and Travel Section of the Tuesday Club met at the home of the curator, Mrs. C. M. Turck on North Glendale avenue, Monday afternoon. Genoa was the subject of a most entertaining talk by Mrs. Glenwood Jones who gave many interesting details of the sights that would appeal to the American tourist, the old palaces, the fascinating shops and quaint by-ways. Mrs. Turck described the Island of Elba, touching on its history as associated with the last days of Napoleon, also describing Pisa and Leghorn. Naples will be the subject of the next meeting.

A Wilson celebration parade organized by W. J. Clendenin of Glendale passed through Tropico Tuesday evening and made the air vocal with horns and other instruments calculated to register joy. The joy ride ended in at rally at Union High where addresses in harmony with the occasion were made.

At the Tropico Methodist Episcopal church, Palmer and Central avenues, next Sunday the Rev. Don S. Ford will begin a series of Sunday morning sermons on "Our Commission," or "What it Means to be a Christian." The text for the series will be the words of Christ to his deciples before he left them, "As my Father hath sent me, even so I send you." The subject Sunday morning will be "Why are we here?" and the evening subject "The Expression of Love."

About seventy Sunday school workers and scholars attended the convention report meeting and supper at the Methodist church last week.

The necessity for a civic center in Glendale, presented by Mrs. Hunchberger, was the chief theme of last week's meeting of the Central P. T. A. of Glendale.

The P. T. A's. of Third and Intermediate schools were addressed by Professor Oliver on "Vocational Training."

O. O. Dennison, 226 Mira Loma, left for Union City, Mich., Tuesday to look after business affairs of his sister, Mrs. G. D. Tyler, who died Sunday. Mrs. Tyler has visited in Tropico on several occasions and was expecting to return again this coming year.

The next social meeting of the Pythian Sisters will be held in the K. P. Hall on San Fernando, Friday evening, the 17th.

CLUB VAUDEVILLE

The vaudeville entertainment promised by the entertainment committee of the Thursday Afternoon Club has been set for Tuesday evening, November 28th. The proceeds will be used for philanthropic work. It will be given in the K. P. Hall.

BAND DANCE

The band dance last Wednesday wasc a highly satisfactory affair from every point of view. A good crowd assembled to enjoy the evening, the music was good, the refreshments (which included ice cream and cake) were ditto, and a goodly sum was realized for the treasury. Members report that the new leader is popular with the boys who are making excellent progress under his instruction.

CHINA SHOWER

Miss Lola Mae East, of 1513 South Jackson street, Glendale, was the hostess at a china shower for Miss Mary Jane Evans, whose marriage to Mr. Louis Coole will take place in the near future. The guest of honor was the recipient of many beautiful pieces of hand painted ware. Pink carnations were used in decoration and dainty refreshments were served. It was an afternoon affair and original games and contests entertained the participants who were besides the hostess: Catherine Phillips, Marjorie Imler, Evangeline Hunchberger, Esther Schremp, Ernestine Lyon, Mildred Wright, Pauline Hamilton, Dorothy Hobbs, Vera Beard, Mabeth Pigg, Alice Beach, Mrs. Glen Craig, Mary Pauline Craig, Mrs. Coole, Mrs. Hough, Mrs. Sparr, Mrs. East, Mrs. Robinson, Catherine Lord, Miss Billington, Mrs. Maude Wright.

SURPRISE PARTY

Mrs. Frank B. Webster of 204 Blanche avenue, entertained last week with a surprise party in honor of her husband's birthday. A color scheme of green and gold was carried out in charming floral decorations in which yellow chrysanthemums were employed, and in the refreshments. The guest list included Dr. and Mrs. George Burton, of Glendale; Mr. and Mrs. Harry E. Bowman and George Tate of Tropico; Miss Ruth Badger and Mr. J. P. Hawks and Mr. and Mrs. Raymond Green of Los Angeles; and Miss Webster of Redondo. The two prizes provided for the ladies were won by Mrs. Green and Miss Webster, Mr. Green and Mr. Tate winning honors for the gentlemen.

W. R. C. FUNCTIONS

Previous to the Inspection of the W. R. C. of the N. P. Banks Post last Friday, Mrs. Susie Peck entertained at luncheon the Department President, Mrs. Ella S. Carlin from Long Beach, the Department Secretary, Miss Jennie Lincoln, and Department Inspector, Mrs. Adeliade H. Imler, Past Department Chaplain, Mrs. Delia Hapgood, Past Department President, Mrs. Mamie Pollock, and the local Corps Secretary, Mrs. Hattie Tiffany. It was a three course luncheon with violet decorations. At the conclusion of the function the guests repaired to the G. A. R. Hall for the inspection, conducted by Mrs. Carlin. About eighty-five members were in attendance who sat down to a five o'clock luncheon prepared by the hospitality committee, Mesdames Purnell, Saunders, Freigon, Atchison, Gregory and Hartwig. Roses featured the decorations and Mrs. Carlin was presented with a beautiful vase filled with rosebuds.

GLENDALE GAIETIES

Mrs. Mattison B. Jones of Orange street, Glendale, was hostess at a dinner party of sixteen young people invited to celebrate last Friday evening the sixteenth birthday of her daughter Winifred. Cards furnished the diversion of the evening.

* * *

Members of the local charities' committee and of the bazaar committees of the Tuesday Afternoon club of Glendale, were entertained at luncheon by Mrs. J. G. Hunchberger last Friday.

* * *

Mrs. H. V. Everly of 1634 Oak street, Glendale, last Friday gave a 7:30 a. m. breakfast of four courses in celebration of her husband's birthday. Covers were laid for eight.

YEOMEN MEETING

There was a good attendance at the business meeting of Yeomen held in the K. P. Hall last Friday evening. Dancing followed, the music being furnished by Mr. and Mrs. Robt, Danner, Gladys and Levert Goddard, Ed and Julius Moniot and Frances Bacon.

JITNEY CASES

The trial for violators of the motor traffic ordinance set for Monday was continued until the middle of the week at the request of City Attorney Shaw who was unable to attend on the day mentioned.

At the studio of Robert Morton on Brand boulevard, some beautiful portraits in water colors are to be seen. Mr. Morton is well pleased with his location and reports an excellent business.

Miss Susie Wendell of Tropico and her friend, Miss Sarah McDonald of West Ninth street, are taking evening courses in the Glendale Commercial school on Brand boulevard.

The Spanish class organized at the Glendale Commercial school is rapidly growing in numbers and doing good work.

PROCEEDINGS OF BOARD OF TRUSTEES

All members were present when the Board was called to order November 14th.

S. P. Contract

Under the call for written communications the City Clerk read a letter from the Southern Pacific Company transmitting a copy of the agreement under which the company granted the city an easement over its right of way for the Brand boulevard crossing and asking for record of filing. The City Clerk stated the agreement had not been filed for record and on motion of Henry she was instruced to have the document recorded.

Bread Weight

A communication was read from the County Sealer of Weights and Measures enclosing a copy of an ordinance adopted by the city of Los Angeles fixing the weight of loaves of bread at 12 ounces. In the interest of the public welfare the passage of such an ordinance by all the cities of the county was recommended.

Moved by Seal that no action be taken at present and that the communication be filed for future reference. Carried.

Change of License

A communication from A. F. Howard was presented in which he returned the taxicab license issued to him on payment of $4.00 for one year, and asked for the issuance of an autobus license, the $4 to be applied as a quarterly payment therefor. Motion by Henry that the request be granted. Carried.

Street Lamps

The Clerk reported the receipt of a circular from the Western Electric Company in re the Sunbeam Light, and mentioned the large number of renewals of these lights on Brand boulevard. In connection she read a quotation on lamps submitted by Parmalee and Dohrmann of 60 watt lamps, small size at $30.50 per hundred or large size at $42.50. Matter held over for one week for investigation.

House Moving

City Marshal Gould reported a request from Mr. Bennett for a permit to move a house on Acacia to another lot on the corner of Central and Acacia. Motion by Seal that request be granted. Carried.

Kiln

Marshal Gould also reported a request by a citizen at 315 Victor Court for a permit to put on the back of his lot a small kiln in which to bake tile, using gas as fuel. Motion by Henry that permit be granted. Carried.

Night Watchman

The Marshal further reported his inability to find a satisfactory night watchman for $65.00 per month but that one could be had for $75.00 per month.

Moved by Henry that the original order to employ a watchman at $65.00 per month re reconsidered. Carried.

Moved by Veselich that a night watchman be employed at $75.00 per month beginning on the 15th of November, to serve at the pleasure of the Board. Carried.

On the recommendation of Mr. Gould the Board then voted to employ as night watchman, Charles Jennings.

Judgment Against Superintendent

City Attorney Shaw reported that in the case of Hasdell vs. the City of Tropico and Street Superintendent Wasson for damages resulting from an auto accident occasioned by a pile of sand in the roadway on Boynton street left unguarded at night, the court held that the city was not liable but sustained judgment against the Street Superintendent in the sum of $300. Later in the session a demand embodying a bill for the repair of the auto in question was presented and rejected.

Gas and Water Mains

Engineer Wattles reported that Hill street would soon be ready for the laying of gas and water mains.

Moved by Alspach that the City Clerk be instructed to notify the gas and water companies that Hill street will be ready for the laying of mains inside of twenty days. Carried.

Acacia Street Work

Engineer Wattles also reported that Contractor Schelling had been dilatory in completing street work on Acacia and requested that his assignees be notified. Moved by Alspach that the City Clerk be instructed to notify Court Brothers, to whom the Schelling Contract has been assigned, that no extension of time will be granted Mr. Schelling on the Acacia or Hill street jobs.

Fountain Cup

President Peters reported that the public fountain cup had been repaired and would be placed tomorrow.

He also returned the petition prepared for circulation among water rate payers with but forty signatures attached.

Motion by Veselich that petition be placed on file until some later date. Carried.

Poultry Show Cup

President Peters submitted a request made to him by a committee of the Glendale-Tropico Poultry Association for a donation not to exceed $10.00 to provide a silver cup to be awarded to a Tropico bird at the December Poultry Show. Moved by Henry that the $10.00 be allowed, seconded by Alspach and carried, Seal voting "No."

San Fernando Lights

President Peters stated that representatives of the P. L. and P. Company had reported their inability to turn on the lights because of the grounding of a wire but that connections had been made. In the course of discussion it was agreed that the grounding was probably due to the breaking and repair of the electrolier at San Fernando and Tropico and that it could be remedied by the Keystone Iron Works who had made the repairs.

Kennel Licenses

Moved by Seal, seconded by Alspach, that the City Attorney be instructed to draw up a kennel license ordinance. Carried.

Assistant Street Superintendent

Moved by Seal that Mrs. Coleman be appointed Assistant Street Superintendent at a salary of $10.00 per month. Seconded by Henry. Carried.

Goat's Milk

Relative to the application for permit to sell goat's milk in Tropico referred to Health Officer, Dr. Mabry asked for additional time to visit and inspect the dairy, which was granted.

Demands

Demands were allowed as follows: California Rock & Gravel Co., $47.85; Tropico Sentinel $3.00; Tropico Sentinel $3.55; Ripley for street labor $17.50; Tropico Feed & Fuel $7.20; Ferry, for labor $100.00; Pac. L. & P. $210.35; Bacon, for janitor work $3.25.

The Board then adjourned.

REAL ESTATE MOVING

As proof that the real estate market in this locality is recovering its activity, C. H. Henry, whose office is on Brand Boulevard just over the line, reports the following sales by him within the past week:

10-acre orange orchard on West Glendale and Sixth street, consideration $20,000.

Three houses on Remington street.

One house on Fiftieth and Howard Streets, Los Angeles.

House on Maple avenue, Glendale.

House on Ruth street, in West Glendale.

Four-room house and lot on Mariposa street.

Mrs. Charles Bruck will be hostess at an alumnium demonstration to be held in the G. A. R. Hall Thursday, November 23rd.

GIRL'S STATEMENT WILL HELP TROPICO

Here is the girl's own story: "For years I had dyspepsia, sour stomach and constipation. I drank hot water and olive oil by the gallon. Nothing helped me until I tried buckthorn bark, gylcerine, etc., as mixed in Adler-i-ka. ONE SPOONFUL helped me INSTANTLY." Because Adler-i-ka flushes the ENTIRE alimentary tract it relieves ANY CASE constipation, sour stomach or gas and prevents appendicitis. It has QUCIKEST action of anything we ever sold. Edwin Virden.

MOTHER'S CLUB NEWS

The regular monthly meeting of the Mother's Club will be held at the Acacia street school on Friday afternoon, November 17 at 2:30.

Prof. White of the Intermediate school of Glendale will give an instructive talk.

MOVING PICTURES ON THE SIDE

Friday night the assembling of a crowd at the turn of Tropico avenue near the crossing of San Fernando boulevard and a smoke filled atmosphere led many people to look around for the fire laddies and the Tropico engine, believing it must be a conflagration at the Anderson machine shop. It was not, however. Instead it was a company of Kalem players staging a melodrama the name of which the Sentinel reporter was unable to secure from the only detached unit of the organization approachable. The unit swung his legs from the tailboard of a big auto truck and stated he was an electric expert taken along to supply the necessary lights and power for the scene, and had not informed himself in regard to name, plot, or players. It was quite evidently an old and boresome story to him. Presently when the properties in the shop had been arranged to the satisfaction of the director and the actors had been stationed and instructed as to their parts, the auto outside began to chug, the wheels inside began to revolve, a dazzling blue-white light flooded the place and the scene started with workmen at the bench, the young employer or foreman exhibiting the machinery to a couple of interested "chickens" who fairly hung on his words with the absorbed attention that movies always depict. When all had grouped themselves beside the workmen there was a flash and explosion, a cloud of smoke out of which the foreman emerged half carrying one of the girls and the workmen were discovered writhing on the floor. The crowd waited for the next scene until the operator began to fold up the tripod of the picture machine, the light went out, and the "chickens" coughing from the acrid smoke of the fake explosion came out to take their places in a waiting auto, and it was evident there was nothing more doing.

Deafness Cannot Be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

CHRISTIAN SCIENCE LECTURE

Extracts from a lecture on Christian Science entitled, The Way to Happiness, Here and Hereafter, by William R. Rathvon, C. S. B. member of the Board of Lectureship of The Mother Church, The First Church of Christ, Scientist, in Boston, Mass., given Thursday evening, November 1, in First Church, Scientist, Glendale. The speaker was introduced by the First Reader, Mr. A. R. Kilgore.

Because Christian Science is not a religion of waiting but of immediate action and prompt results; because it is the religion of the present as well as the future; because it puts joy into life and helps us to overcome death; and because in all its ministrations it pushes aside the transitory forces of the human will and the human mind and grasps instead the ever-avaliable and unlimited powers of the divine Mind, God Himelf, for these reasons its universal appeal is being gladly heard by every class and type of human kind. Naturally it may be asked, How is the investigator to acquire a practical knowledge of this Science for which so much is claimed?

The Textbook and its Author

Every science should be rightly learned from its textbook, and Christian Science is no exception to this rule. Besides the Bible there is but one textbook of Christian Science, the book "Science and Health with Key to the Scriptures" by Mary Baker Eddy, the book that has won its way into the hearts and lives of unnumbered men and women and children, who have found in it a quiet friend whose silent influence is a mighty power for good.

It is perhaps unuecessary to inform this audience that the Discoverer and Founder of Christian Science and the author of its textbook was a woman—a gentle woman, Mary Baker Eddy. You may know too that for years she stood alone—one lone woman against the whole world—opposed and assailed by the world of theology, of medicine, of established usage, of tradition, of conservatism; opposed by the world of intellect and of ignorance, of common sense and uncommon sense, of bigotry and cruelty, of ridicule and falsity; and ever pursued by the human and inhuman hatred of truth. All these forces were for years arrayed against this one woman and the message God had placed in her hands to deliver to humanity. But she was never daunted or dismayed by anything the world, the flesh, or evil might try to do to her, for she never let go of the hand of God.

Never in modern times has a spiritually-minded woman been so relentlessly abused without cause, and her message so maligned and misrepresented from pulpit, press, and platform. Yet in all the years of persecution which Mrs. Eddy suffered,

not one word of retaliation or resentment dropped from her tongue or pen.

She never returned evil for evil. And I assert this not as a matter of hearsay or opinion, but from personal knowledge gained from several years of daily association with Mrs. Eddy, while I was a member of her own household.

Need it be wondered then that there are multitudes of people who are today profoundly grateful to her who has been the means of restoring to them the things that make life worth living? And as one among that multitude I am glad here and always to declare my gratitude for what Christian Science has brought into my life through the right understanding of God which it imparts.

God as Principle

It has been aptly said that life is like an arithmetic, made up of problems which a very few find easy to solve, and which the others never learn to work out. Now we all know that the student's failures to solve the problems of arithmetic are due to his incomplete or defective knowledge and application of the principles of mathematics. But did you ever consider that so many of us fail to solve the problems of every-day life because of our incomplete or defective knowledge of the infinite Principle of existence, God?

Christian Science is giving to man an understanding of God as the infinite Principle of all that really exists, the Principle which, in the words of our textbook, is "underlying, overlying, and encompassing all true being" (Science and Health, p. 496); the Principle which operates through unchanging laws, laws which are alway beneficient and always comprehensible and demonstrable.

Many of us have been taught in our earlier days that it is not essential to understand God, if we will but believe in Him. Now think of trying to solve an intricate problem in mathematics by merely believing in its principles, without understanding them. And are not the problems of life vastly more important and momentous than anything that mathematics can present? Problems which when wrongly worked leave us heavy laden with sickness, fear, want, misery and sin? Christian Science, following the teachings of Jesus the Christ, shows us that a right understanding of God is as essential to every student in the school of life as an understanding of numbers is to the student of mathematics.

Omnipotence

Every right concept of God as infinite good, must include His omnipotence, His omnipresence, His omniscience. Finite man cannot comprehend these divine qualities in their fullness, but it is a noteworthy fact that in the proportion that you do realize them, in that proportion do you find good coming into your life and evil leaving it. You do not need to know all of God that is to be known, before you get any of the good that comes from using even a little of such knowledge.

As you thus learn to know God aright, you will discover that any evil thing which may come upon you has not the power to harm you that you once believed it had. You will no longer dread what men may say or do to you.

You will no longer fear things present or things to come. You will learn to succeed in spite of failure, to be strong in spite of weakness, to be steadfast in spite of the storm. Sickness, sin, want, failure, and the like lose their hold upon you, and even if they should come upon you, they cannot disable, disturb, or depress you, or master you, or deprive you of your God-given rights, nor can they separate you from the love of God, omnipotent good.

In the proportion you realize that God is omniscience, that He knows the eternal truth about all that really exists, even to knowing you far better than you know yourself, knowing you and seeing you as He made you in His own image and likeness, reflecting every quality of good—when you discover this about yourself, and see that evil is not a part of you, does not belong to you, and cannot control you unless you submit to it, then you bestir yourself to get rid of it by reducing it to its native nothingness.

As you learn to know more about God, your thought dwells less upon yourself and your own affairs, and you lose much of that injurious habit of self-thinking that shows itself in such things as sensitiveness, self-pity, self-righteousness, self-justification, and self-condemnation, which is quite as bad. For, my friends, man does not need to be condemned, not even by himself; he needs to be saved.

Dominion and Opportunity

In the old way of thinking we used to hear much about man being the creature of circumstance. Christian Science is reversing this belief of limitation and is proving that man, if he will, may be the master of circumstance, not the victim. There is a short sentence in our textbook bearing on this subject containing only seven words, but so carefully chosen and so skillfully grouped as to form a standard for thought and action which inspires with courage, imparts endurance, and leads to victory. You will find it on page 419 of Scence and Health, and it reads: "Meet every adverse circumstance as its master."

Not only are we here told to do this, but we are also shown how it is to be done. Throughout the whole book we are reminded that man's divine birthright is dominion, not subjection. You remember that in the first chapter of Genesis, where the spiritual creation of man and the universe is described, we are told, not that man is made from a rib, a bone, but that he is created in God's image and likeness and is given dominion over all.

That divine birthright can never be taken from man. It is ours today and ever will be. Is it not pitiful, then, that through fear or indifference or infidelity or lethargy, mankind has allowed this deific bestowal to laspse into desuetude? We need to be awakened and aroused, to exercise our God-given authority. "How are we to do this?" you may ask. Again our textbook answers your question on page 393. Hear these ringing words that should be emblazoned in letters of light upon the banner of every militant Christian who daily goes forth to victory over the forces of sickness, want and woe: "Rise in the strength of Spirit to resist all that is unlike good. God has made man capable of this, and nothing can vitiate the ability and power divinely bestowed on man!"

But let us ever remember my friends, that we are to rise not through the exercise of the human will, not through hypnotism, occultism, or the like, but in the strength of Spirit. Our God-given dominion does not operate through the channels that the human mind provides but only through the ever-present and ever-available forces of Spirit.

Christian Science imparts the understanding of being which shows that opportunity is ever present and ever available to the man who relies upon God more than upon himself or any other man or thing or circumstance or belief. Mrs. Eddy says (Christian Healing, p. 19), "Tireless Being, patient of man's procrastination, affards him fresh opportunities every hour."

ORDINANCE NO. 121

AN ORDINANCE DECLARING THE INTENTION OF THE BOARD OF TRUSTEES OF THE CITY OF TROPICO TO ORDER THE WIDENING OF COLUMBUS AVENUE IN SAID CITY FROM THE NORTH LINE OF TRACT NO. 927 TO PARK AVENUE.

The Board of Trustees of the City of Tropico do ordain as follows:

SECTION 1. That the public interest and convenience require, and it is the intention of the Board of Trustees of the City of Tropico to order that Columbus Avenue in said City be widened from the north line of Tract No. 927 in said City to the north line of Park Avenue, and that said widening shall be done and all proceedings therefor had under the provisions of an Act of the Legislature of the State of California known and designated as the Street Opening Act of 1903.

SECTION 2. That the land necessary and convenient to be taken for the improvement described in Section 1 hereof is that certain parcel of land in the City of Tropico, County of Los Angeles, State of California, described as follows: Lot A of Tract No. 927 as shown on Map recorded in Book 16, page 153 of Maps, in the office of the Recorder of said County.

SECTION 3. The boundaries of the district to be benefitted by the said improvement and to be assessed to pay the expense thereof and to be known as the assessment district therefor, are hereby established and declared to be as follows, to-wit:

Beginning at the southwest corner of Lot 4 Normart's Tract, recorded in Map Book 8, Page 107, records of Los Angeles County; thence northerly in a direct line to the northwest corner of said Lot 4; thence westerly along the south line of Lot 5 of said Tract to a point 100 feet west of the southeast corner of said Lot 5; thence northerly in a direct line, to a point in the north line of Lot 9 of said Tract which is 100 feet west of the notheast corner of said Lot 9; thence northerly in a direct line to the southwest corner of Lot 38 of the Amended Map of the Isabella Tract, recorded in Map Book 11, Page 91 records of Los Angeles County; thence northerly parallel to the west line of Columbus Avenue as shown on said Amended Map, to the north boundary of the City of Tropico; thence easterly along the north boundary of the City of Tropico to a point 160 feet east of the west line of Columbus Avenue aforesaid; thence southerly, parallel to the west line of Columbus Avenue aforesaid to the north line of Tract No. 927 recorded in Map Book 16, Page 153 records of Los Angeles County; thence easterly along the north line of said Tract No. 927 to the northeast corner of Lot 14 of said Tract; thence southerly in a direct line to the southeast corner of said Lot 14; thence southerly, in a direct line to the northeast corner of Lot 17 of said Tract No. 927; thence southerly along the east line of said Lot 17 and prolongation thereof to the south line of Lot 24 of said Tract No. 927; thence westerly in a direct line to the southwest corner of Lot A of said Tract No. 927; thence westerly in a direct line to the point of beginning, excepting therefrom any portion of any public street or alley.

SECTION 4. The Street Superintendent is hereby directed to post notices of the passage of this ordinance as required by law, and to publish a similar notice thereof by two successive insertions in the Tropico Interurban-Sentinel, a weekly newspaper published and circulated in said City and hereby designated for that purpose.

SECTION 5. The City Clerk shall certify to the passage of this ordinance and shall cause the same to be published once in the Tropico Interurban-Sentinel, a weekly newspaper published in said City, and thereupon and thereafter it shall take effect and be in force.

Passed by the Board of Trustees of the City of Tropico and approved at their regular meeting held on the 6th day of November, 1916.

FRANK E, PETERS,
President of the Board of Trustees.

I hereby certify that the foregoing Ordinance was introduced before the Board of Trustees of the City of Tropico at their regular meeting held on the 31st day of October, 1916, and was duly passed by said Board at their regular meeting held on the 6th day of November, 1916, by the following vote, to-wit:

AYES: Trustees Alspach, Henry, Seal Veselich and Peters.
NOES: None.
ABSENT: None.

WITNESS my hand and the seal of said City, this 6th day of November, 1916.

(Seal) MARGARET R. COLEMAN,
Clerk of the City of Tropico.
